

## THE BENEFITS

### MAINTENANCE FREE

With artificial green walls the only maintenance you need to do is clean your plants with a damp cloth, or let the rain clean it for you. Simple.

### INDOOR & OUTDOOR

We have panels for indoor and outdoor areas. You can put our product almost anywhere you like.

### NO UV LIGHT

There is no need to replace or add UV lighting like you do on real walls, our artificial garden walls will last forever.

### NO DEAD SPOTS

Plants aren't designed to live indoors and dead spots occur and these issues happen frequently. Not with **Greenz - Vertical Green Wall**.

### INSTANTLY GREEN

With the real walls, it usually takes weeks for the plants to grow full size, ours come with instant, and permanent results.

### NO IRRIGATION

Avoid huge irrigation set ups or daily hassles of watering your plants. Once your walls is installed there is nothing left to do.

### PERSONALIZE IT

Our panels are easily upgraded, meaning you can add extra flowers or plants to make your wall unique to you.

### REALISTIC

We only use high quality artificial plants, this ensures a realistic look which will be hard to notice by your admirers.

## Ball Leaves Tile (Indoor)
